

Friends of Fort Edgecomb Officers

I here by submit my resignation as a Board Member of the Friends of Fort Edgecomb effective immediately.

I no longer have confidence in the leadership of this organization and feel that it is in my personal best interest to disassociate myself with my further planning, and committee membership.

The decision of the President to knowingly submit a document, that represented a committee believed truth he knew specifically to be incorrect, has placed all members in an extremely awkward position. I can only attribute his lack of immediate communication about this matter to Board members as an act of failed confidence in their abilities, or and intentional decision reflecting less than adequate leadership skills. The result of either leads to the same decision. I no longer need to be a board member of the Friends of Fort Edgecomb.

I regret that this decision may affect the Fort Bicentennial Celebration, but I feel as though the ability to truthfully succeed in this event has already been irrevocably compromised.

Sincerely,

Rebecca J. Graham
